SpillSmart Silt Curtains

SAFEGUARD THE ENVIRONMENT ♦ HIGH STRENGTH & DURABILITY

SPILLSMART 2M DROP CONTRACTOR SILT CURTAIN

With the ever increasing need for construction companies to safeguard the environment from erosion and / or silt problems created through construction sites, custom pollution prevention controls are required. SpillSmart's new Silt Curtain is designed to prevent silt contamination of waterways from manmade or natural erosion.

Silt Curtains are suitable for use in sheltered and inland waters. They are fast to assemble and deploy, tough and abrasion resistant.

Features:

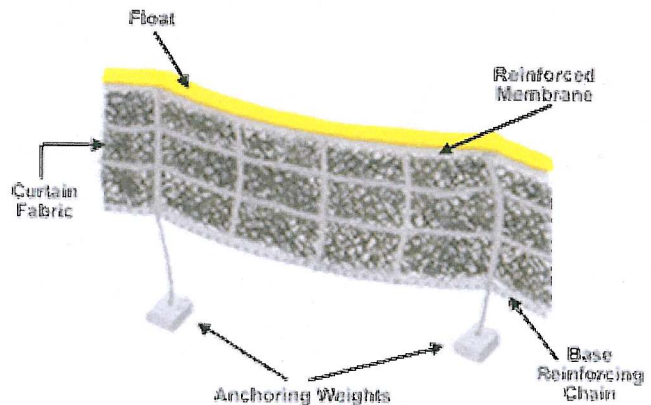

- Easy & fast to deploy
- Suitable for most sheltered waters – Lakes, Rivers, Estuaries
- Permanent floatation
- Cost effective

Sizing:

- Can be customised sizing to suit your requirements, however a standard Contractors Silt Curtain is a 2m drop and in 15m sections.

Specifications:

- 100mm Diameter x 90cm long Styrofoam floatation
- Float covered with UV treated PE / PVC ripstop fabric
- Filtration skirt is made from Heavy Duty Polypropylene 270gsm Geo Fabric
- Handles each metre to allow for easy deployment and are invaluable during recovery.
- Each 15m section is joined by 50mm Hook & Loop Velcro providing easy assembly while giving excellent joining strength but allowing for access or release in the rare event of an emergency
- The joining of various fabric is supported with double (Solar Bond V138) stitching over 25mm

high quality Polypropylene webbing. Polypropylene used for its specific gravity, strength and marine suitability.
